

### Original Image:

Subject: Libray Fireplace  
Approximate distance: 3 feet  
Type of lighting: Natural lighting  
Composition technique: Rule of thirds  
Camera used: iPhone 13  
Camera resolution: 12 MP, 2.6 MB, ISO 125, 26mm, 0 ev, f1.6, 1/96s  
Size: 4032x3024

### Edited Image:

I used the clone stamp tool to remove some reflections and wall scratches. Made it slightly darker to have some colors pop out in the edited image.

### Original Image:

Subject: American Flag  
Approximate Distance: 20 meters  
Type of lighting Natural light  
Composition technique: Rule of Thirds  
Camera used: iPhone 13  
Camera resolution: 12 MP, 3.1 MB,  
ISO 50, 26mm, 0 ev, f1.6, 1/17241s  
Size: 4032x3024

### Edited Image:

I used the clone stamp tool to remove some the sunglare in the grass and a little bits of the background. Made it a little brighter to make the edited image have more of an actual out door feel to it.

### Original Image:

Subject: Millersville Pond  
Approximate Distance: 2 feet  
Type of lighting: Natural light  
Composition technique: Rule of thirds  
Camera resolution: 12MP, 4.4 MB, ISO 50, 26mm, 0 ev, f1.6, 1/2967s  
Size: 4032x3024

### Edited Image:

Increased the lighting slightly and removed some shadows by Dutch-er hall and darkend the bark on the tree with the clone stamp tool. I made the image slightly brighter to have the outdoor feel and colors pop out.

Original Image:

Subject: Glass Sculpture

Approximate Distance: 8 inches

Type of lighting: Natural lighting

Composition Technique: Framing

Camera Resolution: 12MP, 2.3 MB, ISO 200, 26mm, 0 ev, f1.6, 1/60 s

Size: 4032x3024

Edited Image:

Used the clone stamp tool to remove the lighting on the glass object followed by some dust on the newtons cradle next to it. I made the image slightly lighter to give it a improved visual appearance.
